jos

EDUCATION

Find out how our customer in the education industry has benefitted from JOS Managed Cloud Services.

Challenges Faced

Cater BYOD initiatives with better application management and support for 16,000 end users. Require scalability with flexible pricing models to meet changing headcount demands.

Solutions Implemented

Provide hosting of Virtual Desktop Infrastructure (VDI) and Off-premise Cloud Hosting for applications like Microsoft Office and Adobe Suite for their users (teachers and users) to provide high scalability with increased usage. Provide Managed Cloud Services to ensure systems are up-to-date, manage security vulnerabilities and compliance of service-level agreement (SLA).

Results Achieved

Better IT management, resources and support for end users. Greater security compliance with VDI implementation.
